

A MESSAGE FROM THE COMMUNITY ASSOCIATION

Welcome to the Pacific Lakes Estate information website.

This Estate consists of 228 private homes, where each home is on a privately owned lot. There is also a commercial area and childcare centre located near the main entrance. All owners pay levies to their subsidiary associations in order to maintain the community facilities within the Estate.

There are many Community owned or managed areas within the Estate. These include two swimming pools, a community hall, barbecue areas, walking tracks and open areas.

The community hall is used on a regular basis by the Community and is available for private functions.

The entry gates are closed at night to increase security.

In order to maintain the living standard within the Estate, there are by-laws and rules that all residents and visitors are expected to comply with. Please read the other attachments on this website to obtain further information.
